

Connected Across Europe

Powered by the First Q Network

Connecting 15 independent Engineering MEP-based consultancies across Europe to share knowledge, drive innovation, and deliver sustainable, high-performance projects.

LOCAL EXPERTISE. EUROPEAN REACH. GLOBAL STANDARDS.

Who We Are

First Q is a network of leading engineering consultancies across Europe, united by a shared commitment to excellence, innovation, and sustainable design.

Together, we share knowledge, combine expertise, and collaborate across borders to deliver high performance solutions for complex built environment challenges.

For clients, this means local delivery with international strength, ensuring every project benefits from the collective intelligence of over 4,400 professionals working as one. From Smart Buildings and Net-Zero Carbon design to Digital Consultancy and Infrastructure planning, our network transforms complexity into smarter, more sustainable outcomes.

First Q Network at a Glance

15 Countries

A trusted network across Europe

4,400+ Experts

Specialist knowledge at scale

Innovation Shared

Joint research, whitepapers, working groups

Europe's Leader in Sustainable Design

Net-Zero, Smart Buildings, ESG

Redefining Building Performance Across Europe...

Our members combine proven expertise with collaborative innovation. From Smart Buildings to Net-Zero Carbon design, we deliver smarter, more sustainable solutions that shape the future of the built environment.

SMART BUILDINGS

Creating intelligent, user-focused environments that enhance performance, wellbeing, and sustainability.

NET-ZERO CARBON BUILDINGS

Delivering low-carbon strategies, hybrid energy systems, and carbon-conscious solutions for a sustainable future.

SUSTAINABILITY

Driving energy efficiency and environmental performance through design, consultancy, and certification (LEED, BREEAM, WELL, DGNB, HQE).

DIGITAL CONSULTANCY

Harnessing BIM, performance simulation, and data-driven design tools to optimise building performance and project delivery.

ENERGY & INFRASTRUCTURE

Planning resilient utilities and infrastructure with environmental best practice, lifecycle optimisation, and future-ready systems.

Collaboration That Creates Opportunity

At First Q, collaboration is what sets us apart. Through specialist working groups, in Smart Buildings, ESG & Sustainability, BIM, IT and Building Physics, our members share expertise and research that go beyond borders.

Together, we publish joint whitepapers, exchange best practices, and develop innovative solutions that no single firm could achieve alone.

This means clients gain the reassurance of local delivery, backed by pan European knowledge and proven innovation.
